

Annual Review of Procurement Activities under the Procurement Policies and Rules

2018

Prepared by

The Procurement Policy and Advisory Department

March 2019

Executive summary

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2018, funded and/or administered by the Bank, procured by the Bank's clients and entered into the Contract Review and Award database before the date of generating this report (15 March 2019). A separate section (2.16) covers the procurement activities of the Nuclear Safety Department (NSD).

In 2018, a total of 321 contracts (excluding NSD contracts) were signed by the Bank's clients. The total value of these contracts amounted to € 2.776 billion, for which EBRD's own financing represents € 2.108 billion. In comparison with 2017, this is an increase of signed contracts (20 per cent) and a substantial increase in the total contract value (165 per cent). Not included in the overall statistics of this report, are 93 client-led donor funded consultancy contracts selected and contracted by the Bank's Clients at a total value of € 27 million. Due to the reorganisation of the Bank's procurement functions in 2017, these contracts are now under the oversight of PPAD whilst before the reorganisation these contracts would have been under the oversight of the TC Team and reported in the Annual report "Engagement of Consultants".

The average contract value was € 8.6 million and the average EBRD financing was € 6.5 million per contract. Both figures are substantially higher than in the previous year. The largest contract placed was the Shalkiya ore enrichment plant Shalkiya Zinc: Pre-Privatization Loan in Kazakhstan. This design and build contract was signed with a value of € 274 million; of which EBRD financed € 255 million with the remaining amount financed by the client.

As in previous years, the contracts awarded through Open Tendering constitute the majority of the contracts representing 79 per cent of the total number of contracts and 79 per cent of the total contract value. The interest of firms to participate in EBRD financed tenders remains at a high level. The total number of tenders submitted in 2018 was 1,070. Out of these tenders, 70 per cent were submitted by tenderers from EBRD countries of operation resulting in awards of 264 contracts (82 per cent of all contracts) with a total value of € 1.650 billion (64 per cent of the total contract value).

Firms from the following five countries were most successful in terms of highest total contract value, regardless of procurement method: Turkey (€ 633 million), Germany (€ 278 million), Switzerland (€ 278 million), Azerbaijan (€ 250 million) and France (€ 224 million). In total, these contracts represent € 1.664 billion or 60 per cent of the total contracted value.

Cross-border tendering for EBRD financed contracts in countries of operations is at a high level (21 per cent) and 17 per cent of all contracts were won by firms from countries of operations competing in other countries.

PPAD handled 16 complaints which is a slight decrease in numbers compared to 2017 (18).

As of 31 December 2018, based on the Bank's commitments at the time, the contract pipeline shows that in the forthcoming four years, the Bank's public sector clients are expected to sign approximately 700 contracts for an amount exceeding € 6.576 billion.

It should be appreciated that with the relatively small number of contracts that are covered on a yearly basis in this report it is not possible to use this data to analyse long term trends. Contracting activities will inevitably reflect the investment and volume that the Bank finances rather than more general trends in the market.

Section 2 of this report is based on a revised automatised format as explained in Section 1.

Annual Review 2018

1. Introduction

This report, prepared by the Procurement Policy and Advisory Department (PPAD), reviews public sector procurement contracts signed in 2018, funded and/or administered by the Bank and procured by the Bank's clients and entered in the CRA before the date of generating this report (15 March 2019). A separate section (2.16) covers the procurement activities of the Nuclear Safety Department (NSD). This report covers goods, works and consultancy contracts procured and contracted by the Bank's clients, regardless of source of funds.

The format of the Annual Review

A listing of the contracts that have been entered into the CRA system since the 2017 report can be found in Annex 11.

This report includes a separate annex which covers donor funded consultancy services selected and contracted by the Bank's clients. Due to technical restrictions these contracts cannot be entered into the CRA and are therefore reported separately from the overall statistics.

The reporting format does not use "frozen" data as the basis for comparison over the years. This means that the historical information (year to year data) of each annual report will show a larger number of contracts than reported in the previous year as historical contracts will continue to be entered into the system. Compared with the 2017 Annual Procurement Review, there are 21 contracts (2017) and 2 contracts (2016) worth a combined total of € 78.5 million, that have been added to this report. The main reason why contracts signed in one particular year are entered into the system after the report is produced, is that contracts are often only submitted to the Bank when the first disbursement for the respective contract is requested or as part of the reporting requirement to the Bank. Especially the acceptance of alternative procurement procedures has highlighted the need for a different format for reporting as these contracts are often submitted to the Bank in one batch for disbursement, sometimes after the contracts are implemented.

A listing of Grant funded Client-Led Consultancy Contracts by Country of Operation can be found in Annex 12

Annexes 1 to 11 of the *Annual Review 2018* contain the statistical data for the public sector contracts signed during 2018. The analysis of this data (excluding contracts listed in Annex 11), as well as the main procurement activities of the PPAD (section 4), can be found in the main body of this report. Sections 1-3 of this report (not section 4) as well as the annexes will be published on the Bank's website.

2. Analysis of public sector procurement data

2.1 Volume and nature of contracts

2.1.1 Overview 2018 and 5 year trend

Contracts signed by the Bank's clients (excluding NSD) in 2018

321

The total value of these contracts amounted to

€ 2.776 billion

EBRD financing portion

€ 2.108 billion

Total number of signed contracts compared with last year

20% increase

Total value of signed contracts compared with last year

165% increase

Chart 2.1.1a illustrates the number of public sector contracts signed between 2014 and 2018

Chart 2.1.1b demonstrates the overall contract value as well as the portion financed by the EBRD between 2014 and 2018. Over the past five years, a total of 1,264 contracts have been signed with a total value of €9.172 billion of which the EBRD financed €5.917 billion.

2.1.2 Co-financing

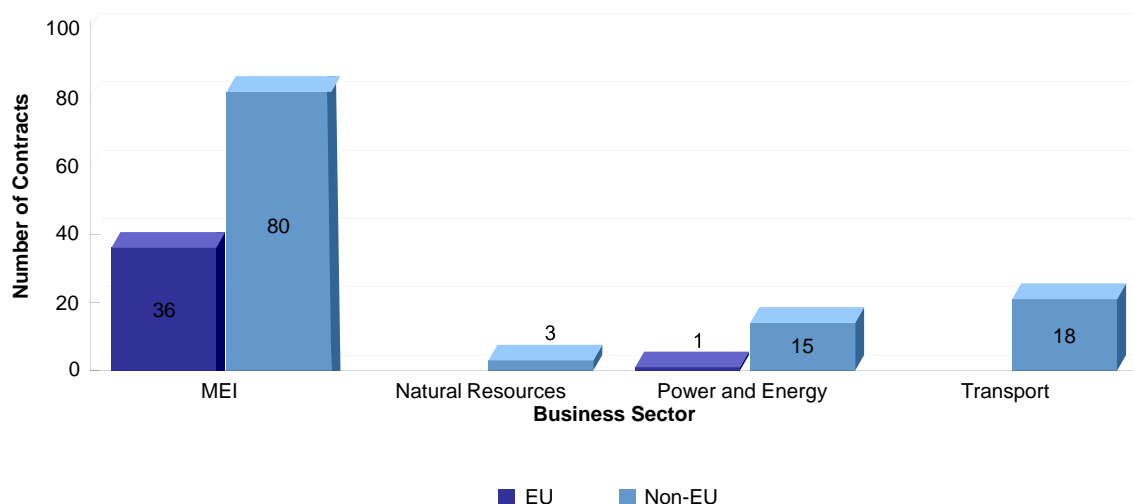

In 2018, the total contract value awarded was €2.776 billion of which the EBRD financed €2.108 billion. The balance of €668 million was provided by other sources, such as other financial institutions (IFIs, EU Agencies, bilateral donors etc.) or by the borrowers themselves. In comparison with 2017, an increase of the co-financed activities is noted, which is reflected by the number and value of co-financed contracts is noted.

The information in respect of co-financed contracts can be found below:

Total value of contracts (2018)	€ 1.838 billion
Total value of the Bank's financing	€ 1.170 billion
Total value financed by other sources	€ 668 million
Total value of contracts (as reported in 2017)	€ 588 million
Percentage of total value of contracts (2018)	66%
Percentage of total value of contracts (2017)	60%
Change of share of co-financed contracts (2018 vs 2017)	6% increase
Number of contracts (2018)	153
Number of contracts (2017)	89
Percentage of total number of contracts (2018)	48%
Percentage of total number of contracts (2017)	36%
Change of share of co-financed contracts (2018 vs 2017)	12% increase

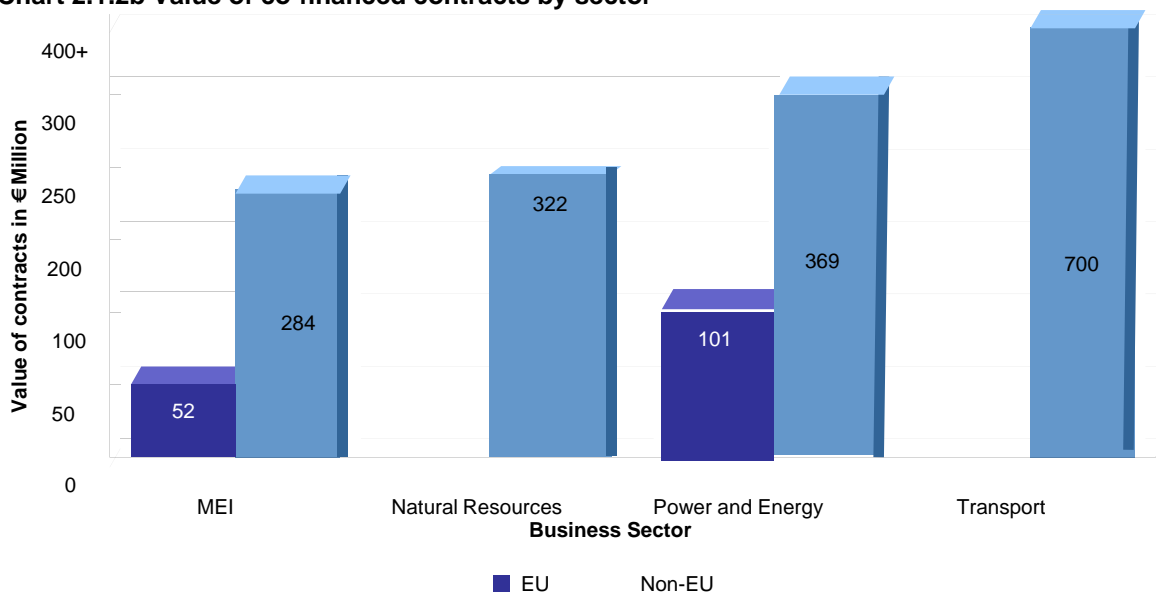

Chart 2.1.2a and Chart 2.1.2b present the distribution of the 153 co-financed contracts, in EU member countries and non-EU member countries by number and by value. Co-financed contracts in EU member countries represented 24 per cent of the total number and 8 per cent of the total value of all co-financed contracts. 116 out of 153 co-financed contracts were signed in non-EU member countries. The sector with the highest co-financed contractual activity in terms of the number of contracts was the MEI sector with 116 contracts, i.e. 76 per cent of all co-financed contracts, representing €336 million. In the MEI sector, out of the 36 contracts signed in EU countries, 27 are co-financed with EU cohesion funds. The highest overall co-financed contract value was in the Transport sector (€700 million representing 38 per cent of the total co-financed contract value).

Chart 2.1.2a Number of co-financed contracts by sector

OFFICIAL USE

Chart 2.1.2b Value of co-financed contracts by sector

2.2 Average and largest value contract statistics

2.2.1 Average values of all contracts

	2017	2018	Percentage Change
Average contract value (€ million)	3.9	8.6	121% increase
Average EBRD financing per contract (€ million)	2.8	6.6	136% increase

2.2.2 Large value contracts

	2017	2018
Number of contracts with a value above € 10 million but less than € 20 million	23	10
Number of contracts with a value above € 20 million	16	31

Largest contract by value:

Design and build contract for construction of Shalkiya ore enrichment plant under Shalkiya Zinc: Pre-Privatization Loan, Kazakhstan.

Total contract value	€ 274 million
EBRD funding portion	€ 255 million

2.3 Analysis by country of operation

2.3.1 2018 analysis

Number of countries of operation with public sector contracting activities: 26

The Countries with the highest number of contracts signed:

Rank	Country of Operation	Number of contracts	% of the total contract number in 2018
1	KAZAKHSTAN	53	17
2	TAJIKISTAN	45	14
3	UKRAINE	41	13
4	KYRGYZ REPUBLIC	28	9
5	BULGARIA	24	7
Overall - Total		191	60

The Countries with the highest cumulative value of contracts:

Rank	Country of Operation	Value of contracts (€)	% of the total contract value in 2018
1	TAJIKISTAN	492 million	18
2	KAZAKHSTAN	409 million	15
3	UKRAINE	408 million	15
4	ROMANIA	286 million	10
5	AZERBAIJAN	272 million	10
Overall - Total		1.867 billion	68

2.4 Analysis by type of contract

Table 2.4.1 gives the distribution of contracts by size and type in 2018. The 139 goods contracts represented the largest total value by contract type (21 per cent of the overall contract value) as well as the largest proportion in value financed by EBRD and EBRD administered grants €532 million out of €573 million (19 percent of total contract value).

Table 2.4.1 Distribution of contracts by size and type (2018)

Contract Size (€M)	Works	Supply & Installation	Goods	Consultant Services	Total
0~0.3	19	5	63	21	108
0.3~7.5	72	18	59	16	165
>7.5	18	12	17	1	48
Total	109	35	139	38	321
Total Value (€)	1,415,128,497	753,773,032	572,796,190	34,003,338	2,775,701,057
Average Value (€)	12,982,830	21,536,372	4,120,836	894,825	8,647,044
Fund Portion* (€)	1,051,678,639	492,819,452	531,762,561	31,479,820	2,107,740,472

*Loans and EBRD administered grants

Table 2.4.2 The following table illustrates the most successful firms by their country for each contract type in 2018

Contract Type	Tenderer Country	Share of Overall Value by Contract Type
Consultant Services	ITALY	23.8%
Goods	TURKEY	22.2%
Works	GERMANY	19.3%
Supply & Installation	SWITZERLAND	17.9%

2.5 Distribution of contracts by award method 2018

Table 2.5.1 illustrates that the majority (253) of the public sector contracts were awarded through open tender. This represents 79 per cent of the total number of contracts awarded and 79 per cent of the total contract value. As open tendering only applies to goods, works and supply and installation contracts procured in accordance with the Bank's PP&R the public sector contracts awarded through open tendering represent 98 per cent of the number of these contracts and 99 per cent of the total contract value.

Contract Size (€M)	Open	Other**	Direct Selection	Competitive	Alternative***	Total
0~0.3	84	8	3	1	12	108
0.3~7.5	127	5	2	15	16	165
>7.5	42	0	1	1	4	48
Total	253	13	6	17	32	321
Total Value (€)	2,197,289,757	8,353,624	33,355,607	32,557,317	504,144,752	2,775,701,057
Average Value (€)	8,684,940	642,586	5,559,268	1,915,136	15,754,524	8,647,044
Fund Portion (€) *	1,728,346,044	8,104,415	33,225,907	30,223,510	307,840,596	2,107,740,472

* Loans and EBRD administered grants

** Other procurement methods include inter alia selection from a short list, shopping, etc.

*** Alternative procurement is the categorisation given to those contracts for which the Board has granted an exception under paragraph 2.4 of the PP&R from the use of the Bank's procurement procedures.

Please refer to the Procurement Policies and Rules edition October 2014 and November 2017, for an explanation of different tender methods.

2.6 Level of participation

2.6.1 Overview

Table 2.6.2 (overleaf) provides data on the level of participation in public sector tenders by country of origin of the tenderers for contracts signed in 2018

A total of 1,068 tenders from 56 countries were received during 2018, which is an increase (26 per cent) compared with the 847 tenders received in 2017. On average, 3.3 tenders were submitted when open tendering procedures were applied (compared with an average of 3 tenders in 2017).

Firms from the following five countries were most successful in terms of highest total contract value, which together won a total of €1.664 billion or 60 per cent of the total contract value, regardless of procurement method :

Tenderer Country	Awarded Value
TURKEY	€ 633 million
GERMANY	€ 278 million
SWITZERLAND	€ 278 million
AZERBAIJAN	€ 250 million
FRANCE	€ 224 million

The 5 most successful tendering countries in terms of number of awarded contracts were :

Rank	Tenderer Country	Number of Contracts
1	KAZAKHSTAN	53
2	TAJIKISTAN	27
3	BULGARIA	24
4	UKRAINE	21
5	KYRGYZ REPUBLIC	20

Firms from these 5 countries won a total of 145 contracts (45 per cent of the total number of contracts) worth €313 million, which represented 11 per cent of the total contract value.

Table 2.6.2 Distribution of tenderers by country of origin (2018)

The column “Rate of Success” seen in **Table 2.6.2** provides an indication of the ratio of the award of contracts and the number of tenders submitted by entities from each country.

Tenderer Country	Signed Contract Value (EUR)	% of Total Value Won	Number of Contracts Won	% of Total Contracts Won	Number of Unsuccessful Tenders	Total Number of Tenders	% Rate of Success	% of Total Tenders Submitted

2.7 Analysis by tenderer

The following analysis is based on open tendered contracts only:

Participation of firms from countries of operations

Chart 2.7.1a shows that out of the 1,068 tenders that were submitted, 70 per cent were submitted by tenders from countries of operations.

Chart 2.7.1a: All submitted tenders

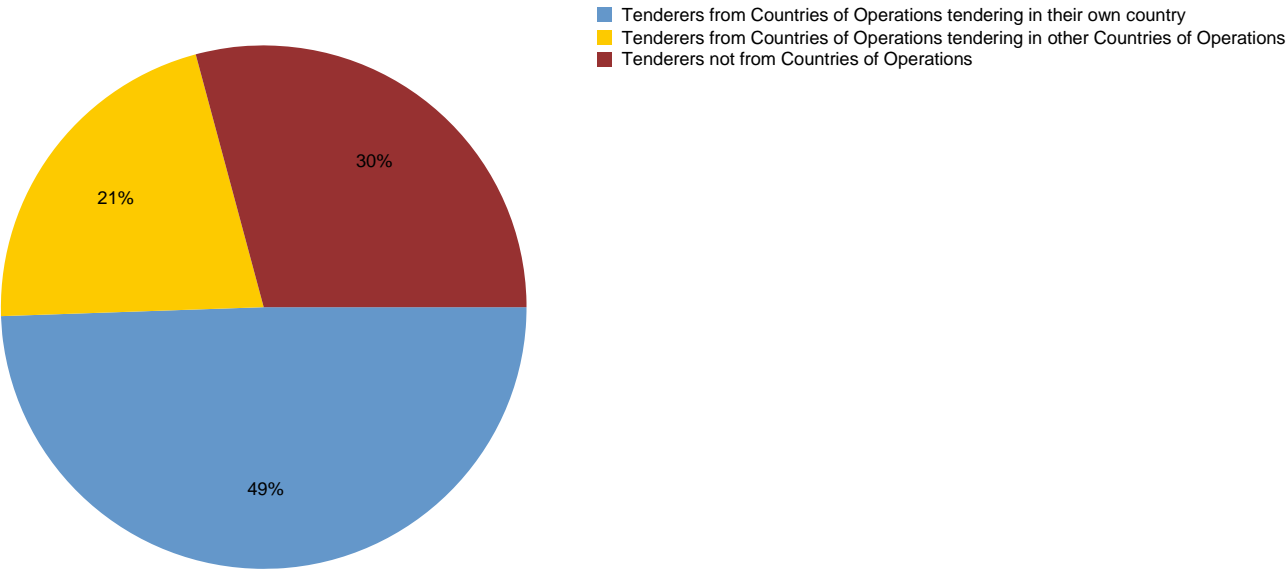

Chart 2.7.1b shows that out of the 321 contracts awarded, 63 per cent were won by firms from countries of operations tendering in their own country and 17 per cent were won by firms from countries of operations tendering in other countries of operations.

Chart 2.7.1b: All successful tenderers (number of contracts)

2.8 Success of entities from countries of operations

Table 2.8.1 represents the success of firms from countries of operations

	Number of Contracts	% of the total Number of Contracts	Value of Contracts	% of the total Contract Value
Contracts won by entities from EBRD's countries of operations	263	80%	€ 1.650 billion	59%
Contracts won by entities from EBRD's countries of operations in their own country	206	63%	€ 828 million	30%
Contracts won by the entities from EBRD's countries of operations in a country which is not their country of origin	57	17%	€ 822 million	29%
Contracts won by the entities from EBRD's countries of operations in their own countries only (list of countries below)	111	34%	€ 69 million	2%

In 2018, 10 countries from the Bank Countries of Operations won contracts only in their own country. These countries were:

ARMENIA
 BULGARIA
 GEORGIA
 JORDAN
 KYRGYZ REPUBLIC
 MOLDOVA

2.9 Public sector procurement under sub-sovereign projects

		Percentage of total Contracts	Compared to the previous year
Number of contracts under sub-sovereign projects	136	42	35% increase
Value of contracts under sub-sovereign projects (€ million)	1,175	42	147% increase

2.10 Alternative procurement

Alternative procurement is the categorisation given to those contracts for which the Board has granted an exception under paragraph 2.4 of the PP&R from the use of the Bank's procurement procedures. In such cases, usually these contracts are procured under rules and procedures applicable to the co-financing institution as well as subject to acceptable alternative monitoring procedures, as set out in the request for exception approved by the Board.

Number of contracts	32
Contracts won by firms in their own country	30
Total value	€ 504,144,752
EBRD funded portion	€ 307,840,596
Average EBRD financing	61%
Largest contract	€ 272,379,834

2.11 Annexes covering 2018

Country and sector tendering analysis

Annex 1 provides a breakdown by country of operation of all contracts signed during 2018 (excluding NSD funded contracts) showing the winning tenderer and participating tenderers.

Annex 2 provides the total value of contracts signed in 2018, distributed by type and by country of origin of the winning firms.

Annex 3 presents the level of interest generated by business sector in the respective countries of operation for 2018

Annex 4 presents the distribution of tenders submitted by country of origin of the tenderers and by country of operations for 2018

Annex 5 presents the distribution of submitted tenders by country of origin of the tenderers and by business sector for 2018

Annex 6 awards by country of origin of the tenderers (Value in € by Procurement Method).

2.12 Analysis by sector 2014 - 2018

Chart 2.12.1a and Chart 2.12.1b illustrate the overall contract value and the number of public sector contracts signed between 2014 and 2018 by business sector. With a total number of 823 contracts (€ 2.847 billion) the MEI sector had the highest contracting activity in terms of number. The Transport sector recorded the highest activity in terms of value, with €3.045 billion over the past five years.

Annual number and value of public sector contract awards by business sector (2014 - 2018)

Chart 2.12.1a Number of public sector contract awards by business sector

Chart 2.12.1b Value of public sector contract awards by business sector

2.13 Cumulative 2014 - 2018 data overview

Table 2.13.1 shows the countries with the highest total value of contracting over the past five years in descending order.

Country of Operations	Awarded (€)
UKRAINE	1.622 billion
ROMANIA	1.094 billion
KAZAKHSTAN	866 million
MOROCCO	754 million
TURKEY	661 million
Overall - Total	4.997 billion

The contracts in these five countries totalled € 4.997 billion which represents 54 per cent of the overall total contract value of the past five years (€ 9.172 billion).

In the period 2014 to 2018 no public sector contracts were reported in:

Country of Operation

CYPRUS
ESTONIA
GREECE
LATVIA
LEBANON
LITHUANIA
POLAND
SLOVAK REPUBLIC
TURKMENISTAN
UZBEKISTAN
WEST BANK AND GAZA

Tenderers from TURKEY have been the most successful over the last five years as they have won a total of € 1.557 billion or 17 per cent of the overall contract value. During the past five years the countries with the highest total amount of contract value were, in descending order:

Rank	Tenderer Country	Total Contract Value Awarded (€)
1	TURKEY	1.557 billion
2	ROMANIA	854 million
3	MOROCCO	737 million
4	UKRAINE	578 million
5	RUSSIAN FEDERATION	507 million

The contracts won by firms from these five countries amount to € 4.234 billion which represents 46 per cent of the overall total contract value for the past five years.

OFFICIAL USE

According to the country of origin of the firms. Out of the 1,264 contracts signed under the EBRD financed projects in the reported period the highest numbers of contracts were awarded to firms from:

Rank	Tenderer Country	Number of Contracts
1	ROMANIA	197
2	TAJIKISTAN	131
3	KAZAKHSTAN	112
4/5	MOROCCO	71
4/5	RUSSIAN FEDERATION	71

The number of contracts won by firms from these five countries is 582 which represents 46 per cent of the overall total contract count for the past five years.

2.14 Listing of annexes 2014 - 2018

Annex 7 provides a distribution by country of origin of the successful tenderers and the value of contracts signed for the period 2014 - 2018

Annex 8 provides the same breakdown but on the basis of the total number of public sector contracts won and signed in the period 2014 - 2018

Annex 9 provides public sector contract awards in the countries of operation by value

2.15 Contract award process

2.15.1 Public procurement postings

Table 2.15.1 summarises data concerning the public procurement opportunities posted on the Bank's Internet site. It should be noted that the procurement notices were also sent to the United Nations Development Business for posting in the MDB business opportunity section as well as to the EU for publishing in the Official Journal of the European Union.

Table 2.15.1 Public procurement postings on web site (2014 - 2018)

Year	General Procurement Notices	Invitations for Expressions of Interest	Invitations to Prequalification	Invitations for Tenders	Total
2014	103	18	13	130	264
2015	126	22	9	159	316
2016	96	29	21	247	393
2017	122	23	11	242	398
2018	103	44	19	199	365

In 2018, the Bank published a total of 365 procurement notices on its internet site. Out of 103 General Procurement Notices published in 2018, 69 were for new projects.

Included in the 2018 totals of table 2.15.1, were 49 notices posted via the ECEPP system (21 General procurement notices, 22 invitations for tenders, 4 invitation for prequalification and 8 invitations for expressions interest).

2.16 Nuclear Safety Department

The EBRD manages seven nuclear safety Funds with over €4 billion in pledged contributions. Each Fund is governed by specific provisions as set out in the Rules of the Fund approved by the respective Assembly of Contributors and by the EBRD Board of Directors. The Funds are managed by the Nuclear Safety Department (NSD) on behalf of the contributing countries. Procurement under the Funds must follow the EBRD's PP&R for public sector projects and the EBRD's countries of operations.

	2018	Compared with the previous year
Number of contracts signed	23	decrease 21%
Value of contracts signed (€ million)	120	decrease 33%

Table 2.16.1 provides the distribution of the NSD administered contracts by size and type.

Contract Size (€M)	Works	Supply & Installation	Goods	Services	Total
0~0.3	0	0	8	4	12
0.3~7.5	1	2	2	2	7
>7.5	0	2	0	2	4
Total	1	4	10	8	23
Total Value (€)	2,000,158	30,427,067	5,360,059	82,485,825	120,273,110
Contract Type Value as % of Total Value	2%	25%	4%	69%	100%
Average Value (€)	2,000,158	7,606,767	536,006	10,310,728	5,229,266

Largest contract awarded:

Contract/Grant Name	€ Awarded Value
Waste Management Projects for the Kozloduy NPP Units 1-4 Decommissioning Programme	40,904,250

Annex 10 contracts for Nuclear Safety Managed Funds for 2018

3. Compliance and integrity

3.1 Procurement Complaints

PPAD handled 16 procurement complaints and 1 concern for Bank financed or administered contracts during the course of 2018, as compared with the 18 procurement complaints and 8 concerns in 2017¹. For reference, the following number of contracts was awarded under the Bank's PP&R, under which participants in the respective procurement processes are eligible to submit procurement complaints and concerns to the respective clients and the Bank. There were 321 contracts signed under public sector projects and 23 under the nuclear safety funds, 2,416 consultancy contracts, funded from Bank administered TC funds and from the Bank's own budget.

Table 3.1.1 presents a comparison of figures for complaints/concerns reviewed between 2014 and 2018, by contract type and procurement method.

Table 3.1.1 Number of complaints/concerns 2014-2018 by contract type and procurement method

Contract type	2014	2015	2016	2017	2018
Works	2	3	8	8	9
Goods	1	3	6	9	3
Supply and Installation	1	5	10	7	2
Commodities	0	0	1	0	0
Services	0	0	0	0	0
Consultancy (Loan or NSD Grant Funded)	3	0	2	2	1
Consultancy (TC and Bank's own funds administered by PODD)	4	2	3	0	2
Total	11	13	30	26	16

Summary of all complaints and concerns

The complaints/concerns raised by unsuccessful entities in 2018 varied in nature. The following issues were raised:

- Challenging the Client's decision to disqualify a tenderer on technical grounds.
- Challenging the qualification of the lowest priced tenderer.
- Allegation that the winning tenderer did not fulfil the requirements of the tender documents.
- Challenging the tender requirements.

In terms of the duration of the review of complaints and concerns, five cases could be finalised within a period of less than five months, while six complaints/concerns could only be closed up to seven, nine, 11, 12 or 13

¹ A distinction is made between those issues raised by dissatisfied parties that clients can resolve themselves and complaints that are formally addressed to and require the action of the Bank. A "concern" is any minor issue that is brought to the attention of the EBRD by a tenderer regarding the procurement process or contract award. The concern is referred to the contracting authority, which is expected to address and resolve the issue with the relevant party under PPD's supervision. If the two parties cannot come to an understanding or an agreement, the concern may be elevated to the status of a complaint. At that point, the EBRD freezes the procurement process and an investigation is undertaken.

months respectively after receipt by the Bank. The review of three complaints under the “Ukraine: Nuclear Power Plant Safety Upgrade Program” and the “FYR Macedonia: M-NAV Modernisation project” took up to 11, 12 and 13 months respectively, mainly due to the complexity of establishing the facts concerning the allegations.

The complaints/concerns closed in 2018 were related to MEI (five), Transport (four), Power & Energy (one), and Nuclear Safety (one) projects. Allegations of improper tender evaluation, restrictive tender requirements and tenderers’ compliance with the requirements of the tender documents were the principal sources of complaints.

The following section provides a summary of the 10 complaints and one concern that were closed in 2018. The information provided includes the nature, the business sector and the outcome of the complaint process for each of these complaints and the concern. None of the 10 complaints were upheld by the Bank. The concern was addressed and became redundant.

Complaints and concerns by nature and by business sector (complaints and concerns closed during 2018, presented in chronological order as received by the Bank)

1. Project: FYR Macedonia: M-NAV Modernisation

<i>Country of Originator:</i>	FYR Macedonia
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	Transport
<i>Contract Amount:</i>	€700,000
<i>Timeline:</i>	< 13 months

Nature of Complaint/Concern:

The complaint related to an open single stage tender for the Supply, Installation and Commissioning of a VHF radio system. The Client had considered the Complainant as substantially non-compliant with the conditions of the tender documents due to material deviations.

The Complainant alleged that the tender had not been carried out according to the agreed procedures and that the best tenderer had not been selected. No specific reason was given for this statement other than that the Complainant believed that the evaluation procedures were not correctly followed as the Complainant was not rejected as non-responsive in the preliminary examinations and was not informed that it had been non-responsive. Reference was made to provisions in the tender documents stating that prior to the detailed evaluation the Employer will determine whether each tender is of acceptable quality, is complete and substantially responsive to the tender documents.

Outcome of the Complaint/Concern Process:

The Client provided its rationale for determining the Complainant’s tender as materially non-compliant. The Client’s views were supported in the report by an independent Technical Consultant, which confirmed “that there are material omissions regarding the proposed networking provision” in the Complainant’s tender. Consequently, the Client had correctly determined the Complainant’s tender to be materially non-compliant with the technical requirements of the Tender Documents and hence was not eligible for contract award. Based on the analysis, the Bank concluded that the allegations made by the Complainant were unfounded, and decided not to uphold the complaint.

2. Project: Ukraine: Nuclear Power Plant Safety Upgrade Program

<i>Country of Originator:</i>	Czech Republic
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	Power & Energy
<i>Contract Amount:</i>	€4,000,000
<i>Timeline:</i>	< 11 months

Nature of Complaint/Concern:

The complaint related to an open single stage tender for the manufacturing and supply of the static part of brushless diode excitation system for turbine generator TBB-1000-4Y3 for SS ZNPP Units 3, 4, 5, 6 of SE NNEG "Energoatom" (Package No. 125). The Complainant alleged that the company, who had been determined by the Client as having submitted the lowest evaluated and substantially responsive tender for this contract, did not meet the requirements set out in the Tender Documents, and therefore should have been rejected by the Client. More explicitly, the Complainant alleged that the winning tenderer had never developed excitation systems for power units of nuclear power plants, and furthermore had no equipment of excitation system tested in operation under operating conditions on turbo generators meeting the required specifications. It was further alleged that a reference company provided by the winning tenderer was being liquidated and should not have been taken into consideration for reference purposes.

Outcome of the Complaint/Concern Process:

Based on confirmations obtained from the Client, the Lender's Monitoring Consultant and the Bank's technical expert it was established that the tenderer who had submitted the lowest evaluated substantially responsive tender had fulfilled the technical requirements as per the tender documents. In particular, the successful tenderer had offered brushless diode excitation systems, which had already been installed in another power plant with the required capacity and had been tested and in operation in compliance with the tender requirements. It was also demonstrated that the reference contracts included in the winning tenderer's tender complied with the technical requirements of the tender, and that the winning tenderer's references concerning manufacturing licences were in compliance with the tender requirements. The Bank therefore concluded that the allegations made by the Complainant were unfounded and decided not to uphold the complaint.

3. Project: Slovak Republic: Bohunice International Decommissioning Support Fund

<i>Country of Originator:</i>	Spain
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	Nuclear Safety
<i>Contract Amount:</i>	€13,250,000
<i>Timeline:</i>	< 9 months

Nature of Complaint/Concern:

A tenderer for Dismantling of Systems in V1 Bohunice NPP Controlled area expressed its concern regarding the potential outcome of the tender evaluation concerning the price and qualification of the tenderer, who submitted the lowest price tender.

Outcome of the Complaint/Concern Process:

The Bank established that the tenderer who had submitted the lowest evaluated tender was compliant with the tender requirements, including its compliance with the relevant radioactive waste handling regulations. The findings were supported by an expert opinion of the Director of Division of Nuclear Installation Safety of the IAEA. On this basis, the Bank decided not to uphold the complaint.

4. Project: FYR Macedonia: M-NAV Modernisation

<i>Country of Originator:</i>	FYR Macedonia
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	Transport
<i>Contract Amount:</i>	€700,000
<i>Timeline:</i>	< 12 months

Nature of Complaint/Concern:

The complaint by a participating tenderer related to an open single stage tender for the Supply, Installation and Commissioning of a VHF radio system. The Complainant and the Client had held a debriefing meeting concerning the Client's decision not to award the Contract to the Complainant. The Complainant alleged that it followed from the minutes of the debriefing meeting that in its financial evaluation of the Complainant's tender, the Client erroneously included certain elements in the price which should have been disregarded, thereby inflating the price of the tender and rendering it uncompetitive. Without these elements, the Complainant would have submitted the lowest evaluated tender and should have been awarded the contract.

Outcome of the Complaint/Concern Process:

The Client provided a detailed analysis and rationale concerning the technical and financial evaluation of the Complainant's tender, demonstrating that its evaluation had been correct. The Client's views were supported in a report by an independent Technical Consultant who confirmed that the Client had correctly applied the method set out in the tender documentation, and that the evaluated price of the tender submitted by the Complainant was higher than that of the winning tenderer. The Technical Consultant further established that the winning tenderer's tender was technically compliant with the technical requirements.

Based on the analysis, the Bank decided not to uphold the complaint.

5. Project: Moldova: Chisinau Water Development Programme

<i>Country of Originator:</i>	Turkey
<i>Complaint / Concern:</i>	Complaint
<i>Business Sector:</i>	MEI
<i>Contract Amount:</i>	€24,243,480
<i>Timeline:</i>	< 5 months

Nature of Complaint/Concern:

This procurement complaint concerned a single-stage open tender for a works contract for the Rehabilitation of a Wastewater Treatment Plant and New Sludge Treatment Facilities. The tender of the Complainant had been rejected during the post-qualification stage of the evaluation as not qualified. The Complainant alleged that they should not have been rejected as they met the qualification requirements and that the Client had not correctly applied the clarification process.

Outcome of the Complaint/Concern Process:

The Bank rejected the complaint on the grounds that it had been established that the Complainant did not meet the qualification criteria in accordance with the tender requirements.

6. Project: Turkey: GrCF-Izmir Metro Project II

<i>Country of Originator:</i>	Turkey
<i>Complaint / Concern:</i>	Concern
<i>Business Sector:</i>	MEI
<i>Contract Amount:</i>	€210,000,000
<i>Timeline:</i>	< 2 months

Nature of Complaint/Concern:

The Bank received letters of concern from three companies who participated in the single-stage tender Izmir Light Rail Transit System 4th Stage Construction Works between F. Altay-Narlidere Kaymakamlik 8507-GPN-46435 -- (KIK 2017/534192). All three companies raised the same issue, namely that the tender requirement that tenderers had "during the last five years" met a current ratio of min. 1.00, and a debt to equity ratio of max. 2.5. The three companies asserted that the requirement to demonstrate such performance "over the last five years" was unreasonable, and requested to limit this requirement to the year preceding the tender.

Outcome of the Complaint/Concern Process:

The Client accepted the amendment to the tender requirements as proposed by the three tenderers and updated the financial eligibility criteria accordingly. The Bank closed the case on the basis that the premise for the concerns had been resolved as a result of the cause being remedied by the Client.

7. Project: FYR Macedonia: National Roads Programme

<i>Country of Originator:</i>	Switzerland
<i>Complaint / Concern:</i>	Complaint

Business Sector: Transport
Contract Amount: €350,000
Timeline: < 6 months

Nature of Complaint/Concern:

This procurement complaint related to a Request for Proposals for an IT Strategy Implementation and Capacity Building consultancy assignment under the National Roads Programme in FYR Macedonia. The Complainant objected to its proposal having been rejected by the Client as non-compliant on the ground that the submission requirements of the technical and financial proposals (separate, sealed envelopes) had not been met.

Outcome of the Complaint/Concern Process:

The Bank decided not to uphold the complaint on the grounds that the Complainant's proposal was materially non-responsive on account of having included price-related information in the technical proposal.

8. Project: FYR Macedonia: National Roads Programme

Country of Originator: Finland
Complaint / Concern: Complaint
Business Sector: Transport
Contract Amount: €350,000
Timeline: < 6 months

Nature of Complaint/Concern:

The complaint concerned the technical evaluation results of the selection (evaluation of proposals; subject to PP&R 2014) for the award of the contract "FYRM: National Roads Programme - IT Strategy Implementation and Capacity Building" by the Macedonian Public Enterprise for State Roads (PESR). The objective of the assignment was the selection of a consultant to assist PESR with the implementation of the Digital Archiving System as well as to provide advice and training to support the implementation of the Company's IT Strategy. The Complainant had submitted a proposal and alleged that in the Client's technical evaluation, the Complainant's proposal should have been scored higher on certain criteria, including the criterion "Qualifications of Key Experts".

Outcome of the Complaint/Concern Process:

The Bank decided not to uphold the complaint on the grounds that the client had not acted unreasonably in its technical scoring of the Complainant's proposal.

9. Project: Croatia: EL TO Zagreb Upgrade Project

Country of Originator: Greece
Complaint / Concern: Complaint
Business Sector: MEI
Contract Amount: €195,000,000
Timeline: < 7 months

Nature of Complaint/Concern:

This procurement complaint concerned the long-running 2 stage tender for the supply and installation of a Combined Heat and Power Combined Cycle Heat and Power Plant (CHP CCPP) in Croatia. The Complainant, who participated in the tender, was dissatisfied with the Client's decision not to extend the tender submission deadline after introducing amendments to the tender requirements.

Outcome of the Complaint/Concern Process:

The Bank decided not to uphold the complaint as the Employer is entitled at any time prior to submission to amend the provisions of the tender document and is not obliged to extend the time for submission. This decision was further considered justified by the length of time which had expired since the original prequalification and review of the tender stage 1 technical solutions, allowing all participants to offer the best current solution based

on already agreed technical solutions.

10. Project: Kazakhstan: Semey Water

Country of Originator: Kyrgyz Republic
 Complaint / Concern: Complaint
 Business Sector: MEI
 Contract Amount: €596,530
 Timeline: < 7 months

Nature of Complaint/Concern:

The complaint concerned the contract "LOT 1 - Pumping stations and chlorination units in Semey - SMY-SU-02 LLP". The Complainant claimed that it submitted the best offer relating to this tender and alleged that they were disqualified due to an error in the Russian translation of the technical specification due to one of the offered pumping units not meeting the technical specifications of the tender documents.

Outcome of the Complaint/Concern Process:

Based on the fact that English was specified as the ruling language in the tender documents, any interpretation of documents needs to be based on the English language version of such documents. It was determined that the Client had correctly based its tender evaluation on the English version of the Complainant's tender and that the pumping units offered in the tender submitted by the Complainant did not meet the requirements of the tender documents. Consequently, the Bank decided not to uphold the complaint.

11. Project: Romania: SMART: Arad Urban Rehabilitation and Parking Management

Country of Originator: Romania
 Complaint / Concern: Complaint
 Business Sector: MEI
 Contract Amount: €22,500,000
 Timeline: < 1 month

Nature of Complaint/Concern:

A participating tenderer filed a complaint regarding the proposed award of the contract for "Urban regeneration of the public spaces within residential blocks in the districts Alfa (Lot 1), Faleză Mureș, Confecții (Lot 2), Micălaca (Lot 5: 100-200 District; Lot 6: 300 District; Lot 7: 500-700 District), Vlaicu (Lot 3 – Right Side; Lot 4 – Left side) and City Centre (Lot 8), including the protected area in the City of Arad" to the winning tenderer as identified by the Client. The Complainant based its complaint on two grounds: a) act of fraud by the winning tenderer signing the Covenant of Integrity while allegedly being under criminal investigation; b) alleged substantial non-responsiveness of the winning tenderer's tender on the grounds of multiple use of key staff whereas this was (allegedly) prohibited by the tender dossier.

Outcome of the Complaint/Concern Process:

The Bank decided not to uphold the complaint on the following grounds: a) the alleged criminal investigation against the winning tenderer and/or its affiliates does not constitute a conviction for a criminal offence nor a Prohibited Practice, therefore the winning tenderer did not commit a Prohibited Practice by signing the Covenant of Integrity stating that they have not been convicted of such practices; and b) the winning tenderer proposed its key personnel in compliance with the requirements of the tender documents.

3.2 Prohibited practices

The Agreement Establishing the European Bank for Reconstruction and Development expressly provides that the Bank must take all necessary measures to ensure that the proceeds of its financing are used solely for the purposes for which such financing was granted. To this end, OCCO investigates and, if appropriate, recommends sanctions for corrupt, fraudulent, coercive, collusive and obstructive practices, theft, and misuse of Bank resources or Bank assets (Prohibited Practices) pursuant to the Bank's Enforcement Policy and Procedures (EPPs).

In 2010, the Agreement for Mutual Enforcement of Debarment Decisions (AMEDD) was signed by the African Development Bank Group, the Asian Development Bank, the Inter-American Development Bank Group, the World Bank Group and the Bank pursuant to which it was agreed that these Mutual Enforcement Institutions would recognise each other's debarment decisions by cross-debarment of the same entities and individuals if specific conditions are met. Entities (and their affiliates) or individuals are ineligible to become the Bank's counterparty in any new Bank project if - in accordance with the EPPs - it is determined that (a) they have engaged in any Prohibited Practice in the context of a Bank project or Bank assets, (b) they are subject to a Third Party Finding, or (c) they are subject to a debarment decision by a Mutual Enforcement Institution.

In 2018, one enforcement proceedings resulted in the debarment of 1 entity and 1 individual for a period of 3 years, while for two enforcement proceedings, a decision is expected in 2019. Additionally, in 2017, the Bank entered into settlements to resolve 3 separate investigations. As part of these settlements, 6 entities were reprimanded, one entity was debarred for 1 year, while 1 entity was conditionally non-debarred and is required to improve its internal controls.

In 2018, in accordance with the AMEDD, the Bank cross-debarred 387 entities and 66 individuals and requested the cross-debarment of 1 entity and 1 individual, which have been subsequently cross-debarred.

Entities and individuals (cross-) debarred by the Bank are ineligible to be awarded Bank-funded contracts during the (cross-) debarment period. On its website the Bank publishes all entities and individuals it (cross-) debarred over the years (<http://www.ebrd.com/ineligible-entities.html>).

PPAD and OCCO work closely together in relation to public sector procurements. The Procurement Function refers potential Prohibited Practices matters to OCCO, provides information on Bank-financed procurement projects to OCCO if required for its investigation, and shares its knowledge and experience about procurements with OCCO. In addition, following the conclusion of its investigations, OCCO shares any relevant lessons learned with PPAD to further strengthen the Bank's procurement processes.

3.3 Independent procurement reviews

Independent Procurement Reviews (IPRs) are carried out with the view to strengthen the ability of the Bank to fulfil its fiduciary obligation with regard to the oversight of procurement and contract implementation, to complement the prior and post review procedures applied, and to inform the Bank's management of the quality of the Bank's fiduciary work on procurement. The projects or issues for IPRs are selected based on: the relevance of the project or the issue reviewed to the Bank's likely future operations and lessons-learned potential.

As one of its findings in 2016, the Bank's Board Effectiveness and Efficiency Group (BEEG) recommended to streamline or amalgamate certain reports. In this context it was decided that the IPRs summary report will not need to be presented separately to the Audit Committee. Instead, the main findings of the IPRs will be reported in the Annual Procurement Review.

The following IPRs were commissioned by PPAD in 2017 and 2018 respectively and will be finalised in 2019:

1) Morocco: ONE-Rural Electrification and Smart Metering (OPID 44057)

An EBRD loan of up to EUR 60 million in favour of the Office National de l'Électricité et de l'Eau Potable (ONE), a state-owned utility company incorporated in the Kingdom of Morocco. The loan finances (i) the completion of the rural electrification programme connecting 1,500 remote villages via LV and MV infrastructure to the country's electricity network, and (ii) a pilot smart metering project to prepare for the deployment of decentralised renewable generation.

In December 2017, the Bank selected a senior independent procurement consultant to undertake the IPR, who will finalise the IPR in 2019.

2) Adequacy of Terms of Reference in MEI (Municipal Environment Infrastructure Team of the Bank) Consultancy Assignments Led by Clients

PPAD has engaged a senior independent procurement consultant to carry out an IPR of the Terms of Reference documents (ToRs) of selected MEI consultancy assignments to assess their fitness for purpose with respect to the needs and expectations of the Bank and its clients. The consultant is further tasked to identify related issues and recommend methods for quality improvement. The ultimate objective of this assignment is to develop unique forms of ToR for repetitive consultancy assignments.

It is expected that consultant will finalise the IPR in the first half of 2019.
